Version 1.0

1. Overview	1
2. Integration	1
3. Configuration	1
4. How to test	2

1. Overview

SmartPDF Extension is a Magento extension designed to easily customize your pdf invoices, order and delivery note.

2. Integration

To install Extension SmartPDF on Magento, process the following steps :

1. Copy folder `app/code/local/MDN` to `app/code/local`
2. Copy folder `app/locale/fr_FR/MDN_SmartPDF.csv` to `app/locale/fr_FR/`
3. Copy file `app/etc/modules/MDN_SmartPDF.xml` to `app/etc/modules/`
4. Then, refresh magento cache from system > cache management

3. Configuration

To configure Extension SmartPDF.

1. Log in to your backoffice
2. Go to the menu "System/configuration"
3. Go to Sales/SmartPDF

You can set :

- Logo pdf
- Store name (displayed beside logo)
- Store Adress (displayed beside logo)
- Store Info (Tél,Fax,Email,http) (displayed in the top right corner)
- Footer PDF
- Header Color (Color is code HTML (ie: #c5c7c8) or in natural language (ie: black))
it's background color for the header block
- Footer Color
- Color line : it's color of line in the pdf
- Text size : Font size for Header and footer text

4. How to test

- For Invoice pdf, you need to select an invoice in menu Sales/invoice and click on Print Button
- For delivery note, select Sales/shipment menu and select one. Click on print button.
- For order you can add a link as you wish in your template, so the customer can print its order :

```
<a href="<?php echo $this->getUrl("SmartPDF/Order/print",array("order_id"=>$_order->getId()));?>">Link</a>
```
